

Adult Touring Team

Guidelines

Captains register their team in the program on an annual basis. All [registration is online](#), usually starting in February.

Services

For each team that joins the program, the VUL will provide the following services:

- Membership privileges for all rostered players, including general liability and sport accident insurance.
- BC Ultimate membership (required for participation at Provincials).
- Practice fields where possible, depending on availability and demand from other teams.
- Team page for promotion to VUL members

Requirements

To participate in the program, teams must meet the following requirements:

- Agree to uphold Spirit of the Game on and off the field.
- Register online and pay registration fees. Fees vary by practice frequency (see below).
- Have open tryouts.
- Have all players become VUL members by completing the team's roster online.
- Agree to follow [VUL Regulations](#) related to field use. Damage to fields may result in teams being removed from the program.

Field Considerations

The VUL has a limited number of fields available for practice. We will do our best to accommodate each team's preferences, including booking additional fields, but flexibility is important. Because demand on some nights is greater than others, and the Park Board sometimes closes certain fields, teams might have to use a field that's smaller than regulation size.

Requests should be submitted at least 2 weeks in advance. We make no promises to fulfill last minute requests.

Teams that are involved in the VUL Contributions Plan will receive priority for fields over teams that are not. For more information about what being a Contributing Touring Team means, please read our [Contribution Area Guidelines](#).
